On April 9, 2002, the Board issued an order along with an attached matrix setting forth the admissibility and purpose of the evidence put forward in this case. Although the parties were directed to remove duplicative exhibits, the parties chose instead to cross-reference duplicative numbering. This was not reflected in the earlier evidentiary order. As a result, some of the exhibit numbers may have an inconsistent admissibility status. To correct this inadvertent oversight, the Board declares that if one exhibit is admitted, its duplicate is also admitted.

ORDER

The matters set forth in this order shall supplement the previous post-hearing evidentiary order.
