**Subject:** FW: PDA Request for 1999 Parametrix Report

Dear Ms. Kenny:

This is to follow up on our email exchange last week (below) regarding the 1999 Parametrix report cited by the Port in its responses to comments. Have you heard back from Ms. Oliva or anyone else yet regarding its whereabouts, or do you have any more information about it?

In addition, the Port is citing a "Stream Survey for Miller Creek" (with no further information provided such as the survey's date or author, etc.) in its response to public comments (at, e.g., page III-68, under response #10). Could you please tell us what your understanding is of what stream survey they are referring to?

Thank you,

Andrea Grad

**Subject:** RE: PDA Request for 1999 Parametrix Report

Dear Ms. Grad,

I am not familiar with this report. Since it is dated 1999 it may be in Tom Luster's files in Lacey. I will check with staff at headquarters and let you know by the end of the week if we have the document. It may take several days after it is located to have it photocopied.

In the meantime you may wish to obtain this document directly from the Port.

Sincerely,

Ann Kenny  
425-649-4310

**Subject:** PDA Request for 1999 Parametrix Report

Exhibit	70
Date	12/20/01
Witness	Kenny
Shane Mills, Court Reporter	

Dear Ms. Kenny:

Pursuant to the Public Disclosure Act, please provide us with a copy of Parametrix's 1999 report entitled Water Effects Ratio Screening Study of Seattle-Tacoma International Airport: Toxicity Evaluation of Site Water (Draft Report). The Port is apparently relying on this report (e.g., in the Port's response to comments by Dr. John Strand/Columbia Biological Assessments) to support its Section 401 application, so we assume it is in

Ecology's files on the Port's application.

We would appreciate receiving this report at your earliest convenience. Please ask Ms. Perkins to let me know when our copy is ready.

Thank you,  
Andrea Grad
