Subject: RE: Public Disclosure Act Request

I'm assuming that, as we are in the midst of working toward a final 401 decision, all relevant internal documents should be considered deliberative and do not need to be disclosed at this time. External documents (that we send e.g., Tom's letter to Dinsmore regarding the withdrawal, or that we receive e.g., the Port's withdrawal document) should be disclosed.

Joan M. is on vacation and can advise further when she returns.

Yvonne, is it OK to coordinate this request through you? If so, I'll ask Nancy G. to send down a copies from my files.

Subject: Public Disclosure Act Request

Dear Department of Ecology:

Pursuant to the Public Disclosure Act, please provide us with copies of all documents generated by Ecology or received by Ecology from the Port of Seattle, its contractors or representatives (e.g., Parametrix), other state agencies, or federal agencies (including but not limited to the Corps of Engineers) since our last public disclosure act requests to your respective offices. This includes but is not limited to letters, memos, reports, emails (including their attachments), notes of telephone conversations, meeting notes, other handwritten notes, briefing or meeting preparation materials, and any other form of written documentation or communication. This request includes but is not limited to any documents relating to or resulting from the Port's recent withdrawal of its Section 401 application.

We appreciate the recent batch of PDA response documents received from Mr. Luster's office pursuant to our last general PDA request, which included some documents from the NW Regional Office.

Thank you in advance for your assistance with the above. We will be happy to pay reasonable copying charges. If you have any questions about this request, please give me a call.

Sincerely,

Andrea Grad
