Subject: CONFERENCE CALL TODAY AT 3:30

We will have a conference call today at 3:30 - with participants listed above (although Keith Smith will likely not be able to participate). At 3:30, please call into: 1-877-842-5648, passcode #97969 (dont wait to be called, when you call this number at 3:30 you will be dropped into the call).

Our agenda includes:

1. Discussion of altered approach to scale-up recharge rather than scaling-up precipitation for the HSPF run used to develop numbers for input to Hydrus
2. Discussion of Pony's concern re: potential upward groundwater flow

Thank you so much for being available...
If you have any concerns about the call, please call me. I will be out of the office between 11:40 and 3:00, but will call in for messages.
Thanks.
