## INTERNAL DELIBERATIVE

KA, TL, AK, KF

SASA - Fill ~~80~~ acres

if no 401 + no flow augmentation by June - then stop work or no more fills to exceed x %.

509 Temporary Interchange:

- need an approved stormwater plan.

• 401 would come after ~~it~~

509 ~~is~~ element of the 401 SMP.

\* provisional - BMG  
ask you m.

Tyee Pond - use as spill containment area. - dual features.

↓ Set 2 - Forested Scrub / Shrub -

401 language - serves as spill containment feature

- Source control BMPs.

\* [ - easement lang. wh / recognizes  
- allows Spill Cleanup.  
- requires restoration.  
not a new impact  
acknowledge the role.

? - will the Port replace Tyee Pond?

□ { South Access Road - DOT,  
• talk to Saudi Mapping  
restrictive covenants

AR 023743

Lagoon #3 - 10 acres  
impermeous liner  
hydrologic impacts (not north  
of wetland 28)  
100% indirect

- Jim Kelly / Dyanne Sheldon

Water Quality BMPs -

\* in Smp - we want to see recognition  
monitoring of enhanced WQ Tvmnt BMPs -  
capability to go those new strands

\* Jim Austin - reasonable potential  
analysis / double BMPs.

#01 - if after yr of monitoring you  
will install this BMP  
- temp. then this  
- copper -

(type of  
exceedance)

KE - continued dissolved con new Sew  
metals - - will immediately facilities (4)  
-> implement 402 / new BMPs.

issue -> upfront vs. incremental

Soil Fill acceptance criteria  
a form

"acceptable fill for upland fill"

- no toxic materials w/in toxic amounts -

\* prohibitions -  
- cant use remediated material

\* sampling /  
Fill  
Borrow sites

Date Kommet - TCP/HO  
\* Monitoring  
- as you fill - see if prob. develops -

\* Remediation if necessary

INTCA - A - Clean air  
AD -

401 - actions taken under 401 shall be consistent w/ CAA -

□ CZM - bail - PD - 401 + CZM  
- POS - new form -  
CAH - Paul Carr  
- additional NEPA / therefore more SEPA

(VW/JS)

Contract - Nov. 8th site visit.
