Subject: PDA Request re Low Flow Analysis

Dear Ms. Kenny:

Several sections of the Port of Seattle's new two-volume Low Flow Analysis recently provided to us by Ecology are either incomplete (e.g., Introduction) or entirely missing (e.g., Determination of Impacts to Streamflow). Please confirm whether the Port has provided Ecology with any of these missing pieces. If it has, please consider this a PDA request to obtain them from you.

Thank you,

Andrea Grad
