KMET, PETER

Summary Statement for Deposition Publication

submitted pursuant to Order Granting Appellant's Motion to Publish Depositions of Ecology Managers and CR 30(b)(6) Designated Witnesses dated March 19, 2002

ACC & CASE v. Dept. of Ecology & Port of Seattle, PCHB No. 01-160

Deponent: Peter Kmet, P.E., Senior Environmental Engineer, Toxics Cleanup Program, DOE Headquarters Policy and Technical Support Unit.

Date of Deposition: December 19, 2001

1. Admissibility

A. Purpose used for or what it will be offered to prove:

Testimony about recommendations and reservations expressed by the Senior Environmental Engineer in Ecology's Toxics Cleanup Program, Headquarters Policy and Technical Support Unit regarding 401 fill conditions.

B. Specific designation (if CR 30(b)(6) deponent):

Fill Criteria, Condition E of the Certification (pp. 14-19).

- **C. Basis for admissibility if challenged by objection:** If an objection is attached pursuant to provision 4 below, ACC's and CASE's response is also attached.
- **2. Excerpting:** The following portions of the Kmet deposition are offered by ACC and CASE:

Page 7, lines 4-17 Page 11, lines 2-23 Page 13, line 11 through Page 27, line 15 Page 28, line 20 through Page 43, line 6

- 3. Counter Excerpts of Respondents: See attached.
- 4. **Objections of Respondents:** See attached.

ACC & CASE v. Dept. of Ecology & Port of Seattle PCHB No. 01-160

Department of Ecology's Designation of Additional Portions of Deposition and Objections Entered Pursuant to the Board's Order of March 19, 2002 and Port of Seattle's Joinder in those Objections and Designations

Deponent: Pete Kmet

Date of Deposition: December 19, 2001

3. Counter Excerpts by Respondent Department of Ecology:¹

<u>START</u>	END
Page 6, line 2	page 6, line 5
Page 6, line 11	page 6, line 13
Page 47, line 21	page 48, line 9

4. Objections to Designations by Appellants:

General objection: Mr. Kmet is *not* a CR 30(b)(6) designated witness and does not speak for the Department of Ecology on its 401 certification to the Port of Seattle. In response to a subpoena naming a governmental agency:

[T]he organization so named shall designate one or more officers, directors, or managing agents, or other persons who consent to testify on its behalf, and may set forth, for each person designated, the matters known on which he will testify.

CR 30(b)(6) (emphasis added).

Ecology did not designate Mr. Kmet as a 30(b)(6) witness.

By Order dated March 19, 2002, the Board has conditionally granted ACC's motion to publish. In response to ACC's motion, Ecology argued that it did not designate witnesses pursuant to CR 30(b)(6) because ACC's request for designation was overbroad and improper. The Board's order apparently rejects Ecology's argument on the basis that by relying on the work of Ann Kenny, Erik Stockdale, John Drabek, and Kevin Fitzpatrick to grant the Port's 401 certification Ecology has *implicitly* designated those individuals as CR 30(b)(6) witnesses. However, this logic does not hold true for Mr. Kmet.

¹ By designating counter excerpts, Ecology does not waive its objections to ACC's and CASE's publication of this transcript. Those objections are reflected in Ecology's Response to Appellants' Motion to Publish and in argument before this Board. Further, Ecology does not waive its objections to ACC's and CASE's use of particular portions of the transcript. Those objections are identified in subsection 4 of this document.

Although Mr. Kmet provided comments to Ecology employees working on the Port's 401 application, Ecology did not rely on his work to grant the 401. As Mr. White testified to this Board, he did not rely on Mr. Kmet to reach his decision.² Similarly, in response to an ACC question about how to read the 401 certification, Mr. Kmet stated in his deposition "I think that's up to the person preparing the certification and what was their intent." Deposition of Peter Kmet, p. 43, ll. 1-6.

Mr. Kmet's own documents demonstrate he gave mere "recommendations" regarding acceptable fill criteria. Hearing Ex. 36 (June 27, 2001 e-mail from Peter Kmet to Kevin Fitzpatrick). In his declaration to this Board, Mr. Kmet stated that his June 27, 2001 message "should not be construed to conclude that the acceptable fill criteria established in the § 401 Certification are or are not protective of water quality." Declaration of Pete Kmet, p. 2, ll. 3-4. In response to the final question in his deposition, Mr. Kmet confirms that his comments do not address water quality.³

Therefore, Ecology objects under CR 30(b)(6) and on relevance grounds to publishing Mr. Kmet's deposition transcript for the purpose of ACC arguing that Mr. Kmet's recommendations regarding acceptable fill reflect Ecology policy. Ecology's acceptable fill policy for the Port's Third Runway Project is reflected in its 401 Certification.

In addition to its general objection, Ecology objects to particular portions of Mr. Kmet's deposition transcript as follows.

START	<u>END</u>	OBJECTION
Page 16, line 4	page 16, line 7	Mischaracterizes witness' testimony (re "you reached the opinion the sampling frequency was insufficient.")
Page 20, line 5	page 20, line 21	Relevance. No foundation. Under WAC 173-340- 900 Ecology has set the MTCA Method A Soil Cleanup Levels for Unrestricted Land Uses. In Table 740-1 of that rule the Cleanup Level for Arsenic is 20 mg/kg. According to footnote "b", that level is "adjusted for natural background for soil." The rule was recently amended effective February 12, 2001.
Page 26, line 14	Page 26, line 23	Relevance. No foundation.

PORT JOINS ECOLOGY'S DESIGNATIONS AND OBJECTIONS

Counsel for the Port of Seattle have reviewed Ecology's designations and objections. The Port joins in all of Ecology's designations and objections.

² Although Mr. White has testified in this matter Ecology does not yet have access to the hearing transcript and, therefore, cannot yet provide the Board with a precise cite to Mr. White's testimony in this regard.

³ Deposition of Peter Kmet, p. 48, ll. 8-9 - "My e-mail is not addressing WAC 173-201A-040." WAC 173-201A-040 is Ecology's water quality regulation.

Appellants' Responses to Objections Raised by Ecology and the Port To The Publication of Depositions of Ecology Managers and CR 30(b)(6) Witnesses

ACC & CASE v. Dept. of Ecology & Port of Seattle, PCHB No. 01-160

Deponent: Peter Kmet, P.E., Senior Environmental Engineer, Toxics Cleanup Program, DOE Headquarters Policy and Technical Support Unit.

Date of Deposition: December 19, 2001

Responses to Ecology Objections:

For the publication of the deposition of Mr. Kmet, Ecology raises a general objection, and three specific objections that are each addressed below.

1. **Response to General Objection:**

In granting the Motion to Publish, the Board has already rejected Ecology's argument that it did not designate Mr. Kmet as a CR 30(b)(6) witness. Mr. Kmet is a Senior Environmental Engineer in the Toxics Cleanup Programs' Policy and Technical Support Unit. He clearly can testify regarding the Department's policy regarding hazardous substances and the Model Toxics Control Act, Ch. 107D RCW ("MTCA").

Ecology's suggestion that Mr. Kmet's deposition is irrelevant factually lacks merit. Chung Yee, the Department person assigned to review the fill criteria, was specifically directed to provide a "response to comments and concerns raised by Pete Kmet." Ex. 21. To the extent that Ecology has argued that it relied upon its technical experts, the matters its technical experts were asked to address are directly relevant.

2. Objection: Page 16, line 4 through Page 16, line 7

Response: This question was in regard to Exhibit 31, a September 11, 2000, email from Mr. Kmet to Mr. Fitzpatrick. Exhibit 31 is identical to exhibit 15, which was discussed during the cross examination of Chung Yee. In the third page of the attachment to the September 11 email, Mr. Kmet states, with regard to the proposed fill criteria sampling schedule "this sampling schedule is insufficient to determine compliance with the MTCA standards." Accordingly, the question starting on page 16, line 4 directly quotes Mr. Kmet's testimony and Ecology's objection here should be overruled.

3. Objection: Page 20, line 5 through Page 20 line 21

Response: The relevance objection here is unfounded because the protectiveness of the fill criterion for arsenic is directly at issue in this case. Mr. Kmet

states in his answer that when the MTCA method A standard of 20 was adopted in 1991, Ecology "believed 20 was natural background for arsenic." However, Mr. Kmet explained that, "since then we've done sampling throughout the state and learned that in Western Washington, background is more n the order of 7 to 8 parts per million or milligrams per kilogram." The foundation for this question was established on page 19, line 6 of the deposition when Mr. Kmet identified Exhibit 32, which Mr. Kmet identified as the concern he raised regarding the proposed arsenic limit: "20 is too high and it should be set at background. Background in Western Washington is 7 to 8."

Ecology also attempts to argue in this objection that natural background for arsenic is 20mg/kg based on a footnote to table 740-1, which was amended in February 12, 2001. This argument is disingenuous and expressly contradicted by the testimony of all other witnesses in this case. In particular Department of Ecology Publication #94-115 – Natural Background Soil Metals Concentrations in Washington State, which was offered as Exhibit No. 1063 by Ecology, identifies Puget Sound Natural Background for Arsenic to be 7 mg/kg.

4. **Objection:** Page 26, line 14 through Page 26 line 23

Response: Again, there is no basis for a relevancy objection here because the issue of whether MTCA based standards are sufficient to protect water quality is directly at issue in this case. In particular, MTCA method A sets limits for gasoline, diesel and heavy oil, which are all allowed under the numeric criteria in the 401, but which Ecology's Kevin Fitzpatrick testified was a "mistake."

The foundation for this question was established on page 25, line 14 of the deposition where a portion of exhibit 35 was read to Mr. Kmet, which stated "Mr. Kmet recommended that MTCA should not be used for the establishment of clean fill criteria for the Seattle-Tacoma International Airport third runway project" and Mr. Kmet was asked, "do you think this is an accurate characterization of a conversation you had?" Mr. Kmet responded "yeah." Page 26, Line 1. Accordingly, a proper foundation was established for the question regarding Mr. Kmet's conceptual objection to the use of MTCA to establish fill criteria for third runway project.

1	implementing regulations?	1	couple years.	11
2	MR. KRAY: Objection. I'm not sure that this	2	Q. Can you tell me who within the Department of	
3	witness can qualify Mr. Wingard as an expert.	3	Ecology you've discussed fill criteria with?	
4	MR. WITEK: He can answer the question.	4	A. Kevin Fitzpatrick and Chung Yee. Probably	
5	A. Could you repeat the question?	5	others, but those two principally that I can remember.	
6	MR. WITEK: Could you read the question back,	6	Q. Were you ever asked to do any work on the	
7	please?	7	development of fill criteria for the third runway	
8	(Reporter read back as requested.)	8	project?	
9	MR. KRAY: Objection, calls for this witness	9	A. I was asked to comment on some of the draft	
10	to testify on a legal conclusion.	10	documents that were prepared leading up to the permit.	
11	THE WITNESS: Do I have to respond to that?	11	Q. And who asked you to review draft comments?	
12	Q. (BY MR. WITEK) Please answer the question.	12	A. Probably Kevin or Chung. I'm not sure.	
13	A. Well, I can't look into Greg's mind. I don't	13	Q. What position does Mr. Fitzpatrick hold in	
14	know him that well to know what his knowledge is. He's	14	the department?	
15	participated in these committees, so obviously he has	15	A. He works in our northwest regional office.	
16	some knowledge. How detailed his knowledge is, I don't	16	I'm not sure exactly what his position is there.	
17	know. You'd have to ask him.	17	Q. So Mr. Fitzpatrick is not in the toxics	
18	Q. Are you familiar with the Port's proposed	18	control program?	
19	third runway project?	19	A. The cleanup program? Not that I'm aware of.	
20	A. Only generally.	20	Q. What position did Mr. Yee hold?	
21	Q. When did you first become aware of the Port's	21	A. Chung has moved around several times. I	
22	proposed third runway project?	22	think he's working now in the headquarters part of	
23	A. Probably read about it in the newspaper or	23	Toxics Cleanup Program in a different unit.	
24	saw a news coverage about it, and I don't remember	24	(Deposition Exhibit No. 30 was marked for	
25	when, but it's been quite some time.	25	identification.)	
	10	Τ	· · · · · · · · · · · · · · · · · · ·	12
1	Q. Are you aware that the Department of Ecology	1	Q. (BY MR. WITEK) Mr. Kmet, does the document	
2	has issued a Clean Water Act, Section 401 Certification	2	labeled Exhibit 30 look familiar to you?	
3	for the third runway project?	3	A. Yes.	
4	A. Yes.	4	Q. Can you tell me what this document is?	
5	Q. Have you seen the August 10th or September 21	5	A. This is an e-mail from me to or it looks like	
6	certifications that were issued by the department?	6	from Chung that's a good question. From Chung K.	028825
7	A. I've seen one of them. I don't frankly	7	Yee to me. That can't be right.	8 8
8	remember the date on the one that I saw. I don't	8	Q. Take your time.	ğ
9	remember. I saw a document provided to me by our	9	MR. WITEK: Off the record for a second.	~
10	Attorney General's office. I don't know which one that	10	(Discussion off the record.)	AR
11	was.	11	MR. WITEK: Let's go ahead and go back on.	
12	Q. Do you remember when it was that you first	12	A. What's not clear to me, if this is a	
13	discussed fill criteria or inclusion in the 401	13	document I originated or as being sent to me. It is an	1
14	Certification?	14	e-mail copy of an e-mail to Kevin Fitzpatrick from	
15 16	MR. KRAY: Objection, lack of foundation.	15	Chung K. Yee and it's been sent to me, but I don't know	
10	A. Well, I don't remember a specific date when I	16	if I'm the person who's writing on this or not. Let me	9
18	became aware of the permit and had discussions on it. Q. (BY MR. WITEK) Have you had discussions with	17	look at it a bit more here.	
19	other people within the department about the fill	18	No. This is a copy of an e-mail that was	
20	criteria that should be included within the 401	19	sent to me, a copy.	
20	Certification?	20 21	Q. (BY MR. WITEK) Is it your understanding that	
22	A. Yes.	21	the underlined words were additions or comments by Mr. Yee?	
23	Q. Can you remember approximately how long ago	22		
24	that was?	23	A. I'm not sure who originated those, but those are not my comments.	
25	A. Not specifically. Probably within the last	24	Q. And Mr. Kmet, the date on that e-mail is

15 13 established with reference to the number of samples per August 24th, 2000; is that correct? 1 1 2 area? A. Yes. 2 A. I'm not sure I understand your question. Q. And do you believe this is your earliest 3 3 You determine the over 95th percentile e-mail regarding the third runway project? 4 4 confidence limit using the data from the samples that 5 A. I'm not sure, but I think this is about the 5 are obtained, the test results that are obtained. In time that I started to have a bunch of e-mails back and 6 6 this case it's referring to a site, data from a site. 7 forth regarding the project. 7 Q. What number of samples are required to reach 8 Q. Thank you. 8 a 95 percent confidence limit? 9 (Deposition Exhibit No. 31 was marked for 9 A. We don't specify a minimum number of samples 10 identification.) 10 in the rule. I suppose the technically correct answer Q. (BY MR. WITEK) Mr. Kmet, is Exhibit 31 an 11 11 is more than one. e-mail from you to Kevin Fitzpatrick dated September 12 12 Q. So your comment here was that the sampling 13 11th, 2000? 13 frequency is insufficient to determine compliance with 14 A. Yes. It's a copy of it, Ann Kenny's copy. 14 the MTCA standards; that to comply with the standards a Q. Is the underlined language on Exhibit 31 your 15 15 site must meet three requirements and the first is a 95 16 comments? 16 percent confidence limit on test results? A. Yes, I believe they are my comments. The 17 17 A. The first criteria is the upper 95th headers are underlined in the attachment. I don't 18 18 confidence limit on the test results must meet the think I created that part of it, but the comments 19 19 within the body are mine. I recognize them. 20 standard. 20 Q. And the sampling frequency that you are MR. KRAY: To clarify the record, are you 21 21 commenting on is the sampling -- the first sampling referring to the e-mail or the attachment underlining 22 22 schedule in the boxes underneath the text on Page 23; 23 in your question, Mr. Witek? 23 is that correct? 24 MR. WITEK: I was referring to both. 24 A. No. I believe I was commenting on the third A. And my response is to include both the e-mail 25 25 16 14 set of boxes on Page 24. These first two boxes are and the attachment. It's the attachment has some 1 1 part of my comment. underlined headers that I believe were part of the 2 2 Q. Thank you. original document that was sent to me, and from what I 3 3 So looking at Exhibit 31, Page 24, the 4 can recall I didn't add those. 4 sampling schedule that you reviewed, how is it, looking Q. (BY MR. WITEK) Mr. Kmet, you can see there's 5 5 at this sampling schedule, that you reached the opinion some numbering in the lower right-hand corner of the 6 6 the sampling frequency was insufficient? 7 7 pages. A. Well, again, this comment is in the context 8 8 A. Yes. of the MTCA standards and it may or may not be 9 Q. Can you turn to Page 23 of Exhibit 31. 9 sufficient, depends on how scattered the data is, 10 A. Yes. 10 whether or not that will be enough samples to 11 Q. So this is your comment in the third 11 demonstrate that your upper 95th confidence limit on 12 paragraph that's underlined discussing sampling 12 your test results is meeting the standard. 13 13 frequency? Q. How does the sampling schedule that you were 14 A. That's correct. 14 asked to review compare to the sampling schedule that Q. Can you explain to me the reference to a 95 15 15 you included in your comments? 16 percent confidence limit? 16 A. Well, the first set of sampling schedule that 17 A. What I'm referencing here are the 17 I had suggested as an alternative is the one that's in requirements for determining compliance with the MTCA 18 18 our petroleum contaminated soil guidance and that has a cleanup standards that are in WAC 173-340-740. 19 19 lot higher sampling frequency than what was provided to Q. How do you establish what a confidence limit 20 20 me as proposed. The second block is -- was my 21 is? 21 recommendation for native soil borrow pits, basically A. It's a statistical test. You take samples 22 22 23 clean areas. and run the statistical test to determine the upper 23 Q. And with respect to your recommendation for 24 95th confidence limit on the test results. 24 native soil borrow pits, how did you select the number Q. Is the 95 percent confidence limit 25 25

17 19 10 as the minimum number of samples? 1 A. It looks like it's the same schedule that I 1 2 A. You know, I don't remember, but probably 2 commented on as part of this e-mail, and it wasn't based on my experience with looking at data sets and 3 3 changed. trying to figure out approximately how many samples 4 4 (Deposition Exhibit No. 32 was marked for you'd need to try to demonstrate compliance with the 5 5 identification.) MTCA cleanup standards. Again, it depends greatly on 6 6 Q. (BY MR. WITEK) Mr. Kmet, does Exhibit 32 the variability of the data as to the number of samples 7 7 look familiar? 8 you'd need. 8 A. Yes. It's a copy of an e-mail. 9 9 Q. Going back to Page 23, in the third Q. Did you express concern to Mr. Yee about the paragraph, this is on Exhibit 31, what was your second 10 10 arsenic limits that were proposed for the fill criteria 11 principal recommendation? 11 in the 401 Certification? 12 A. The second point is again just a reiteration 12 A. According to this I did. of something that's in the rules which is that "No more 13 13 Q. Do you remember having discussions with 14 than 10 percent of the samples can be above the 14 Mr. Yee about arsenic? 15 standard." 15 A. I don't remember if it was to Chung Yee or 16 Q. And what was your third principal 16 someone, but I think in an earlier e-mail or one of 17 recommendation? 17 these e-mails I did make a comment about that. And I 18 A. Again, the third requirement is a reiteration 18 don't remember if I had a conversation with him in 19 of a requirement that's in the rule that no one soil 19 addition to those e-mails or what. I did mention it to 20 sample can be more than twice the standard. 20 either Kevin or Chung. This says I was talking to him, 21 Q. So these comments were delivered from you to 21 so I'll assume it's correct. 22 Mr. Fitzpatrick; is that correct? 22 Q. This e-mail says, "He think," and I think 23 A. That's what it appears from this e-mail that 23 thinks was intended, "20 is too high and it should be I sent these comments -- this e-mail to Kevin 24 24 set to background. Background in Western Washington is 7 to 8." Is this description consistent with your 25 Fitzpatrick on September 8th, 2000. 25 18 20 1 Q. Did Mr. Fitzpatrick respond to your comments 1 memory of the discussions you had about arsenic? 2 and suggestions? 2 A. Yes. 3 A. No, I don't remember. If he did and I had an 3 Q. And is that still your opinion today? e-mail, I would have provided that to you. 4 4 A. I'm not sure what -- in relation to what? 5 Q. Do you know whether your recommendations with 5 Q. Is it still your opinion that the fill 6 regard to sampling frequency were incorporated into the criteria should be set to Western Washington background 6 7 401 Certification? 7 as opposed to 20 milligrams per kilogram? 8 A. I'm not sure which document you're referring 8 A. I'm not sure I can answer that question. In 9 to. Maybe we should start there. 9 the context of the current certification, I haven't 10 Q. It's the one that has the September 21, 2001 10 done any evaluation of that. My recollection to this 11 date on it, and it's also labeled Exhibit 1 in the 11 conversation was in relation to the Method A cleanup 12 lower right-hand corner, and discussion of the fill 12 level, and at the time that standard was originally 13 criteria begins on Page 13 of 33. 13 promulgated in 1991, we believed 20 was natural 14 MR. KRAY: Which -- Exhibit No. 1? 14 background for arsenic. Since then we've done sampling 15 MR. WITEK: Sorry, it's Exhibit 1. 15 throughout the state and learned that in Western 16 **A.** And your question again is. 16 Washington, background is more on the order of 7 to 8 17 Q. (BY MR. WITEK) I'll just ask a new question 17 parts per million or milligrams per kilogram. And so 18 and we'll move forward. if I recall this discussion, the context of, if you're 18 19 Is there a sampling schedule in the September going to set a standard based on natural background, 19 20 21, 401 Certification which is Exhibit 1? 20 then you should be using 7 or 8, not 20, is the essence 21 A. I see a sampling schedule on Page 16 of that 21 of the conversation. 22 document. 22 Q. Do you know what the limit is for arsenic i. 23 Q. And can you tell me how that sampling 23 the September 21 401 Certification? 24 schedule compares to the schedule you recommended in 24 A. If it's the one on Page 17, it's 20 25 the document that we're referring to as Exhibit 31? 25 milligrams per kilogram. Yamaguchi, Obien & Mangio AR 028827 Carla R. Wallat, CCR, RPR, CRR *

(206) 622-6875 * cwallat@yomreporting.com

21 A. Yes. It is Table 749-3. Q. Did anyone ever respond to your comments or 1 1 Q. And can you tell me what page number that's 2 suggestions regarding arsenic? 2 on in the lower right-hand or left-hand corner? A. Again, I don't remember. There may have been 3 3 A. Of Exhibit 28? an e-mail. Again, if I printed a copy out of it, I 4 4 0. That's correct. 5 would have provided it to you. 5 A. Page 243, at least part of it's there. Part (Deposition Exhibit No. 33 was marked for 6 6 7 of it's on Page 244 also. identification.) 7 MR. WITEK: Does anybody mind if we take a 8 O. (BY MR. WITEK) Mr. Kmet, does Exhibit 33 8 five-minute break. appear to be a copy of an e-mail from yourself to Chung 9 9 10 (Recess taken.) Yee sent on September 11th, 2000? 10 Q. (BY MR. WITEK) Mr. Kmet, in Exhibit 33, did 11 A. Yes. 11 you recommend the use of the values for terrestrial 12 0. Does this look familiar? 12 ecological protection? 13 A. Yes. 13 A. I'd suggested that Chung look at those 14 Q. Did you raise concerns about arsenic in this 14 15 values. 15 e-mail? O. And those values are the ones in the table 16 A. Yes. 16 that you've identified in Exhibit 28, Page 243 and 244? 17 Q. This e-mail states, "I think you need to look 17 A. That's correct. carefully at that value as the calculations indicate 18 18 Q. Can you turn to also -- if you have enough 19 the current Method A arsenic soil cleanup level may not 19 desk space, table space -- to Exhibit 1, it's the 20 always be protective." Can you tell me what the 20 September 21 certification, Page 17 of 33. Can you current Method A arsenic soil cleanup level was at the 21 21 tell me how the fill criteria limitation for antimony 22 time you wrote this e-mail? 22 in the 401 Certification compares to the levels in 23 A. 20 milligrams per kilogram or parts per 23 24 Table 749-3? 24 million. A. The level in the certification is 16 25 Q. Did you express concerns about diesel, heavy 25 24 22 milligrams per kilogram and the value in Table 749-3 is 1 oil and mineral oil? 1 5 milligrams per kilogram. 2 A. Yes. 2 Q. Do you remember whether you had any 3 0. In the second paragraph from the bottom, you 3 discussions or further e-mail exchanges with Chung Yee stated, "Also, all of these values are based on human 4 4 or Kevin Fitzpatrick following your e-mail that's health exposure pathways and do not take into account 5 5 Exhibit 33 regarding the issues you raised in the ecological concerns." Can you explain to me what you 6 6 7 e-mail? meant by "ecological concerns"? 7 A. There may have been some. I don't remember A. Well, in the context of the soil cleanup 8 8 if they were before or after this particular e-mail. levels, these standards in the Method A tables at that 9 9 There was a series of e-mails that went back and forth time were largely considering leaching and -- leaching 10 10 right about this time and, again, the ones that I had and the potential for contamination of groundwater and 11 11 printed out copies of I provided to my counsel anyway. 12 direct human contact with the soil. Ecological 12 concerns are not directly taken into account and those 13 I assume you've received those. 13 028828 (Deposition Exhibit No. 34 was marked for values. By ecological concerns I mean potential 14 14 identification.) impacts on plants, animals, wildlife, surface water 15 15 Q. (BY MR. WITEK) Mr. Kmet, does Exhibit 34 16 16 impacts. look familiar? 17 17 Q. What were the ecological indicator A B A. Yes, it's an e-mail I received from Craig 18 concentrations you were referring to in this e-mail? 18 19 Thompson, June 7th. A. I'm referring to specific Table 2 which I 19 Q. This e-mail states in part, the second 20 believe is the now tables in the final adopted rule 20 sentence, "Chung Yee and I would like to sit down with 21 Table 749-3, I think. 21 you this coming Monday, 6/11/01, and talk (up to an Q. Is the exhibit you're referring to now 22 22 hour -- maybe less) about the concerns you expressed as 23 23 Exhibit 28? 24 outlined below." Do you recall whether or not any such A. Yes. 24 Q. Have you identified the appropriate table? 25 sit down occurred? 25 Carla R. Wallat, CCR, RPR, CRR * Yamaguchi, Obien & Mangio

(206) 622-6875 * cwallat@yomreporting.com

25 27 1 A. You know, I think we briefly met, but I don't 1 A. I think in another e-mail I expounded on 2 remember going into any details about this -- these that. But basically -- in fact, I think we may have 2 concerns. I don't even remember what we talked about, 3 3 talked about it earlier in one of these earlier 4 but I know that we -- I know that at some point I 4 e-mails. But it had to do with the testing 5 didn't -- we were going to meet and we had a brief 5 requirements, making sure that all of the various conversation and we didn't end up going into any requirements, not just the Method A standards, are 6 6 7 detailed conversation about this project. 7 complied with if they're going to use MTCA in that 8 (Deposition Exhibit No. 35 was marked for 8 manner. 9 identification.) 9 Q. Do you still have the document labeled 10 Q. (BY MR. WITEK) Mr. Kmet, does Exhibit 35 10 Exhibit 31? look familiar? 11 11 A. Yes. 12 A. I don't know as if I've ever seen this 12 Q. Is your comment about sampling frequency on particular e-mail. I may have. 13 Page 23 of Exhibit 31 one of the other requirements of 13 14 Q. This e-mail states in part that, "On Monday, 14 the MTCA referred to in Exhibit 35? June 11, Mr. Craig Thompson had a limited discussion 15 15 A. Yes, I believe so. 16 with Mr. Pete Kmet of the HQ/TCP on this project. 16 Q. On Exhibit 35 which is the e-mail from Chung Mr. Kmet recommended MTCA should not be used for the 17 Yee to Kevin Fitzpatrick, Mr. Yee states or wrote, 17 establishment of clean fill criteria for the 18 18 "Since his recommendations are considered as the 19 Seattle-Tacoma International Airport Third Runway 19 department policy with respect to this project, project. However, if MTCA is to be used for this 20 20 therefore it would be inappropriate for me to comment purpose, Mr. Kmet further recommended all other 21 on his recommendations." 21 22 requirements of the MTCA should be applied for the 22 Who do you take it Mr. Yee is referring to in 23 establishment of a clean fill criteria." 23 this e-mail? 24 24 Do you think this is an accurate MS. BARNETT: Objection, calls for 25 characterization of a conversation you had? 25 speculation. 26 28 1 A. Yeah. Now that I see this, I think this is 1 A. I think he's referring to me. I quess you 2 referring to this earlier meeting that was referred to have to ask him. 2 3 in that e-mail, and I think it is an accurate 3 Q. (BY MR. WITEK) Mr. Kmet, is there anyone description of what I remember the discussion. We 4 4 else from your unit at the Toxics Cleanup Program that 5 didn't get into detail about the criteria. It was more provided clean fill policy advice to the Northwest 5 6 a conceptual level discussion which I think this 6 Region office? 7 captures. 7 MR. KRAY: Objection to the form of the 8 Q. So conceptually on June 11th, 2001, you 8 question. 9 disagreed with using MTCA for the establishment of 9 Q. (BY MR. WITEK) Is there anyone else from AR 028829 10 clean fill criteria for the airport third runway 10 your office that provided comments, suggestions or 11 project? recommendations to the Northwest Region office 11 12 A. That's what this is saying that I said at 12 regarding clean fill criteria? 13 that time. 13 A. Well, I don't know. One of these e-mails 14 Q. And what was your conceptual objection? 14 shows that Craig Thompson was involved in the 15 A. To what? 15 discussions and he's in our office. Beyond that I Q. To the use of MTCA for the establishment of 16 16 don't know who's had conversations about clean fill 17 clean fill criteria for the SeaTac Airport third runway 17 criteria. 18 project. 18 (Deposition Exhibit No. 36 was marked for 19 A. Well, I think the essence of my concern was 19 identification.) 20 that the MTCA cleanup criteria are developed for the --20 Q. (BY MR. WITEK) Mr. Kmet, is Exhibit 36 an to set standards for the cleanup of contaminated sites 21 21 e-mail from yourself to Kevin Fitzpatrick on June ?" and that's what they're supposed to be used for, not 22 22 2001? 23 for establishing what is or isn't clean fill. 23 A. That's correct, yes. It's a copy of it, Ann 24 Q. Do you know what the other requirements of 24 Kenny's copy. 25 MTCA are that are referred to in this e-mail? 25 Q. In the second paragraph in the e-mail, copy Carla R. Wallat, CCR, RPR, CRR

* Yamaguchi, Obien & Mangio (206) 622-6875 * cwallat@yomreporting.com

29 Q. (BY MR. WITEK) And was it your of the e-mail that is Exhibit 36, it states, "Note that 1 1 recommendation that the most restrictive value in Table this does not address potential human health exposure 2 2 749-3 should be used? pathways or protection of aquatic organisms, which will 3 3 A. Yes. need to be addressed with other language." Do you 4 4 Q. And that table is Exhibit 28 on the Page remember if anyone ever responded to this comment? 5 5 marked 233 through 244? A. I don't remember. There may have been other 6 6 7 A. Yes. e-mails. I don't remember anybody specifically 7 Q. Can you compare for me the most restrictive 8 responding. 8 value in 749-3 to the fill criteria listed in the 401 Q. Do you know if any language was included in 9 9 Certification, Exhibit 1 on Page 17? the 401 Certification to address these concerns? 10 10 A. My understanding is that these criteria that 11 A. Yes. 11 Q. Is the certification criteria for antimony when they were developed by Chung Yee, he did look at 12 12 lower or higher than the most restrictive value in 13 these pathways. 13 14 Table 749-3? Q. What is meant by a human health exposure 14 A. Antimony is listed as 16 in the certification 15 pathway? 15 and in Table 749-3 it's 5, so it's higher. A. It would be -- in the context of this e-mail, 16 16 Q. How about with respect to arsenic? I was probably thinking of the direct pathway -- person 17 17 A. Arsenic is 20 in the certification and most 18 coming in direct contact with the soil, either 18 stringent value in -- well, it depends on what type of 19 ingesting it or dermally being exposed to it or 19 arsenic you're referring to, but Table 749-3, the value drinking water that may have been contaminated by 20 20 for arsenic III is 7. Arsenic V, the most stringent is 21 leaching of contaminants from the soil. 21 O. So this e-mail lists several recommendations 22 10. 22 Q. What's the difference between arsenic III and 23 from you; is that correct? 23 arsenic V? 24 24 A. Yes. A. The valent state of the arsenic. 25 Q. And what was your second principal 25 30 Q. In layman's terms, what's a valent state? 1 recommendation? 1 A. The form that the arsenic is in. In any A. I said, "Second, I am recommending we require 2 2 event, 20 is higher than the most stringent value for the fill material to meet the most stringent value in 3 3 both of those forms of arsenic in Table 749-3. Table 749-3 unless bioassay testing is conducted that 4 4 Q. How does the fill criteria limit for chromium 5 demonstrates the fill is not toxic to plants and 5 in the 401 Certification compare to the most 6 animals." 6 restrictive value listed on Table 749-3? AR 028830 7 Q. Do you know whether bioassay testing is 7 MR. KRAY: Go off the record for just a 8 incorporated into the 401 Certification? 8 9 second. A. I don't know. 9 MR. WITEK: Sure. 10 Q. Would you like to take a couple minutes to 10 (Discussion off the record.) 11 look at it? 11 A. Well, the total chrome value in the 12 A. I would have to review the whole thing here 12 certification looks like it's 42, and the most in order to answer that question. Do you really want 13 13 stringent total chrome value in Table 749-3 is 42. So 14 me to do that? 14 they're the same number. And then it goes on to say Q. Mr. Kmet, can you answer the question with 15 15 total chrome of 2000 in the certification -- fill with respect to the portion of the 401 Certification that's 16 16 total chrome concentrations greater than 42 and less listed as Condition E which begins on Page 14 of 33 in 17 17 than 2000 may be placed to within six feet of the Exhibit 1 and continues through to Page 19 of 33? 18 18 ground surface. No fill with a total chrome A. I can review those pages right now. 19 19 concentrations greater than 42 may be placed within the 20 MR. KRAY: While he does that, why don't we 20 first six feet of the embankment. 21 take a short break. 21 Q. (BY MR. WITEK) Do you take that to mean that 22 MR. WITEK: That's fine. 22 42 milligrams per kilogram is the certification limit 23 (Recess taken.) 23 applicable to the first six feet and that 2000 24 A. Yes. I don't see any specific reference to 24 milligrams per kilogram is the 401 Certification limit bioassays in that part of the permit or certification. 25 25

32

	33		35
1	for chromium applicable to everything outside of the	1	antimony?
2	upper six feet?	2	A. There are a variety of them.
3	A. I'm not sure what the first six feet means.	3	Q. Why are there a variety of them?
4	Is it the bottom first six feet or the upper first six	4	A. Probably reflecting the responses that we
5	feet? It's not clear to me what that refers to. But	5	received from various labs when we put this table
6	anyway, there are two limits in the certification, to	6	together.
7	answer your question, for total chrome, 42 and 2000,	7	Q. How many PQLs are there for antimony?
8	and the Table 749-3 uses 42 as the most stringent	8	A. Well, there's a column labeled as PQL that
9	number. For chrome VI, 19 as specified in the footnote	9	lists 1.5 and 16 as PQL, but it also provides a range
10	to the Water Quality Certification table, and I don't	10	depending on the laboratory method anywhere from .00025
11	see a chrome VI number in	11	to 10 milligrams per kilogram.
12	Q. That's okay.	12	Q. How does the or how do the two POLs for
13	A this table.	13	antimony compare to the most restrictive value on Table
14	Q. I won't ask you to continue with chromium any	14	749-3 for antimony?
15	more.	15	A. Well, Table 749-3 uses 5 as the most
16	I would ask you to make the comparison	16	stringent value. As I mentioned before, PQLs in this
17	between the I am asking you to make the comparison	17	table that are part of implementation Memo No. 3 range
18	between the fill criteria in the 401 Certification and	18	from .00025 to as high as 16.
19	the most restrictive value on Table 749-3 with respect	19	Q. You stated earlier that this memo was dated.
20	to both selenium and silver.	20	Do you know whether additional PQLs have been
21	A. For selenium the Water Quality Certification	21	established since this memo was drafted?
22	requires uses 5. And the most stringent value in	22	A. I don't know, but we are intending eventually
23	Table 749-3 is .3.	23	to update this memo now that the new regulation has
24	For silver the value in the Water Quality	24	been put in place.
25	Certification is 5 and the most stringent value in	25	Q. In the first listed test method for antimony
	34		36
1	Table 749-3 is 2.	1	which has the No. 16 in the PQL column, there's a
2	Q. Mr. Kmet, are you familiar with the term	2	thumb's up in the following column. Do you know what
3	practical quantitation limit?	3	that indicates?
4	A. Yes.	4	A. I don't remember.
5	Q. Can you refer to the exhibit that's already	5	(Deposition Exhibit No. 37 was marked for
6	been marked as 26?	6	identification.)
7	A. Yes.	7	A. I've seen another version of this that
8	Q. What is a practical quantitation limit in	8	defines those flags that are in here. I don't remember
9	layman's terms?	9	what they are. One means it passes, the other means it
10	A. My understanding of the term is that's a	10	fails in comparison to the cleanup standards, I
11	concentration that the lab can quantify. That's the	11	believe.
12	lowest concentration that a lab can quantify using that	12	Q. (BY MR. WITEK) Mr. Kmet, I'm handing you a
13	particular analytical method.	13	document, it's identified as Exhibit 37. Can you take
14			a few minutes to familiarize yourself with that.
15	Q. Does Exhibit 26 contain a table?	14	
16	A. Yes.	15	On Exhibit 37, on the Page No. 3 of 4 in the
	A. Yes. Q. Does this table look familiar to you?	15 16	On Exhibit 37, on the Page No. 3 of 4 in the upper right-hand corner, does the second to the last
17	 A. Yes. Q. Does this table look familiar to you? A. Yes. 	15 16 17	On Exhibit 37, on the Page No. 3 of 4 in the upper right-hand corner, does the second to the last paragraph on the page explain what the thumb's up
17 18	 A. Yes. Q. Does this table look familiar to you? A. Yes. Q. Can you just generally tell us what it is? 	15 16 17 18	On Exhibit 37, on the Page No. 3 of 4 in the upper right-hand corner, does the second to the last paragraph on the page explain what the thumb's up means?
17 18 19	 A. Yes. Q. Does this table look familiar to you? A. Yes. Q. Can you just generally tell us what it is? A. 45 A. Yes. specified in the rule. But if you're using statistical 1 1 Q. The first section under that heading states, methods, those are sort of the three key criteria that 2 2 "Toxic substances shall not be introduced above natural 3 have to be met under this rule. 3 background levels in waters of the state which have the Q. (BY MR. WITEK) For purposes of establishing 4 4 potential either singularly or cumulatively to 5 compliance with MTCA, why is it important that this 5 adversely affect characteristic uses, cause acute or 6 regulation be followed? 6 chronic toxicity to the most sensitive biota dependent 7 MR. KRAY: Objection, calls for a legal 7 upon those waters, or adversely affect public health, 8 conclusion. May call for a legal conclusion. 8 as determined by the department." 9 A. Well, these are the requirements in the 9 A. I see that. regulation. So if you're using MTCA on a cleanup site, 10 10 Q. With reference to Exhibit 36, your June 27, 11 these are the requirements you have to comply with. 11 2001 comments, do you believe the fill criteria that Q. (BY MR. WITEK) You mentioned earlier today 12 12 you were reviewing in this e-mail would assure that the MTCA regulations had recently been revised; is 13 13 compliance with the standard in the first section of 14 that correct? 14 173-201A-040? 15 A. Yes. 15 MR. KRAY: Objection, calls for a legal Q. Did that include parts of Exhibit 38? 16 16 17 conclusion, lack of foundation. A. This appears to be a -- the part of the 17 A. Well, I don't -- there are no criteria in regulation that we adopted earlier this year, which was 18 18 this particular set of e-mails. What criteria are you 19 the amendments to the cleanup regulation that were 19 20 referring to? adopted -- this is dated February 12th, 2001. I 20 Q. (BY MR. WITEK) The fill criteria as they believe that's the correct -- latest copy of the rule. 21 21 existed on June 27, 2001, do you have an opinion as to 22 Q. Can you turn to Exhibit 1, Page 14 of 33 --22 whether they would be effective to prevent toxic 23 I'm sorry, Page 15 of 33. Are you familiar with the 23 substances being introduced above natural background environmental assessment that's called for in the third 24 24 levels in waters of the state at the SeaTac Airport? 25 full paragraph on Page 15 of 33? 25 48 46 MR. KRAY: Objection, calls for a legal 1 A. I'm familiar with them. I haven't looked at 1 conclusion, lack of foundation. those particular standards for quite some time. I 2 2 A. Could you tell me which criteria specifically 3 assume you're referring to the ASTM procedures in the 3 you're referring to? I mean the substance of this third paragraph here, E 1527-00 and E 1903-97. I've 4 4 e-mail is me providing comments about a very specific seen those, I read them, but it's been quite a while 5 5 issue, series of issues. I do say that what I'm 6 since I've looked at them. 6 addressing in this e-mail doesn't address protection of 7 Q. Do you know whether a Phase I requires soil 7 aquatic organisms. My e-mail is not addressing WAC 8 8 sampling? 9 173-201A-040. A. You know, I can't remember. I would have to 9 MR. WITEK: Thank you, Mr. Kmet. I don't 10 10 review those documents again. have any more questions for you. 11 Q. Mr. Kmet, do you have a copy of Exhibit 5? 11 MR. KRAY: Nothing. 12 12 A. Yes. (Deposition concluded at 3:54 P.M.) 13 MR. KRAY: Off the record for a moment. 13 14 (Signature reserved.) (Discussion off the record.) 14 15 MR. WITEK: Take a short break. 15 16 (Discussion off the record.) 16 17 (Deposition Exhibit No. 39 was marked for 17 18 identification.) 18 19 O. (BY MR. WITEK) Mr. Kmet, do you have a copy 19 now of the document which has been labeled Exhibit 39? 20 20 21 A. Yes. 21 22 Q. Can you turn to what's labeled as Page 7 in 22 23 AR 028834 the bottom right-hand corner? 23 24 A. Yes. 24 25 25 Q. Do you see WAC 173-201A-040? Carla R. Wallat, CCR, RPR, CRR * Yamaguchi, Obien & Mangio (206) 622-6875 * cwallat@yomreporting.com
